The Organizational Systems and Technology Track has the following minitracks:

- Advances in Design Science Research
- Advances in Trust, Identity, and Trusted Systems in Technology-Mediated Environments
- Big Data, Data Science and Analytics Management, Governance and Compliance
- Business Intelligence, Business Analytics and Big Data: Innovation, Deployment and Management
- Business Value of Smart Devices on the Internet of Things
- Digital Innovation
- Enterprise Architecture and Business Process Analysis
- Enterprise System Integration: Issues and Answers: Impacts, Evolution and Innovations in Integrated Systems for the Enterprise
- Information Security and Privacy in Business and Society
- Information Systems Benefits and Value
- IT Governance and its Mechanisms
- Knowing What We Know: Theory, Meta-analysis, and Review
- Managing Platforms and Ecosystems
- Practice-based IS Research
- Social-Technical Issues in Organizational Information Technologies

- Strategy, Information, Technology, Economics, and Strategy (SITES)
- The Dark Side of Information Technology Use
- The Impact of Digitization on Business Operations
- The Transformational Impact of Blockchain
- Topics in Organizational Systems and Technology

The Organizational Systems and Technology Track is the largest track at HICSS. It is also the most eclectic, ranging from Business Analytics to Theories in IS Research to IT Governance. Many of the topics relate closely to what is currently “hot” in the world of practice, such as Big Data and Blockchain. The Topics in Organizational Systems and Technology minitrack contains papers that do not fit neatly into any of the other minitracks. Some of the topics of these papers may emerge in the future to be minitracks.

We would like to express our appreciation to everyone who contributed to this track. Tung Bui continues to provide guidance. The minitrack chairs believed in the importance of their minitracks and provided the creativity and hard work required to make the minitracks a reality. The reviewers helped select the papers included in the OST Track and their comments made the papers better.
